

art *move*-ment

For this project you will:

- research some of the major movements in the history of art
- create a work that is aligned with one of them
- get at the essence or core of the movement and interpret that in clay

some examples . . .

- pop art
- minimalism
- abstract expressionism
- cubism
- surrealism
- conceptual art
- dada
- fluxus

research is key.

what is the base concept of the movement?

(this is what you should incorporate into your work)
