

Interaction

1. reciprocal action, effect, or influence.
2. Physics.
 - a. the direct effect that one kind of particle has on another, in particular, in inducing the emission or absorption of one particle by another.
 - b. the mathematical expression that specifies the nature and strength of this effect.

for this assignment, you will initiate an art related dialogue with an artist (does not have to be a ceramic artist)
- communicate with them on a regular basis through e-mail, phone, in person, skype, whatever
- you might send them images of your work, or have them visit the studio to see your work
- you might visit their studio, read about about them, read what they have written, etc.

then . . .

create a work or series of works structured on ideas discussed between you and this artist
